

Classics

Sharpline's Classics™ offer you the latest in one-way rear window graphics. Sharpline's Classics™ are created by digitally printing crisp, vivid colors onto perforated one-way window film.

While the selected image shows bright and clear on the vehicle exterior, the view from the interior is similar to that of a tinted window. Best of all, Classics™ are extremely easy to install, giving you a simple way to create a complete vehicle transformation in a matter of minutes.

Each Classics™ panel measures 24" x 65", allowing the same graphic to be installed on either the smallest compact or the largest fullsize truck or SUV. Once applied, the excess material is simply trimmed away, leaving a professional looking installation.

GRAPHICS

VECTORS™

StreetArt™ Vectors™ give you the ability to customize your graphics for any design or color preference. Use any of the Vectors™ below in conjunction with StreetArt™ Evolutions™ (pages 55-58) or with any of Sharplines high-performance vinyl colors. Vectors™ require the use of two 16" x 119" vinyl panels, or two StreetArt™ Evolutions™ panels, to produce a complete kit.

Sharpline can produce StreetArt™ Vectors™ graphic sets to order, or restylers can create their own vehicle graphics with StreetArt™ Vectors™ available on CD-ROM. StreetArt™ Vectors™ are offered in both .ai and .eps formats. Add StreetArt™ Vectors™ to your digital graphic offering today!

1161 VECTOR 1
14.37" x 116.63"

1162 VECTOR 2
14.32" x 116"

1163 VECTOR 3
14.36" x 116.9"

VECTORS II™

Sharpline's StreetArt™ Vectors™ are back and better than ever. Now available to be cut out of either 16" or 11" wide material, StreetArt™ Vectors II™ give you ten designs you can either purchase on CD-ROM to cut yourself, or have Sharpline's Express Graphics™ department cut and mask for you. Be sure to check out Sharpline's new Evolutions II™ digitally printed patterns (pages 55 & 56), designed specifically to be used in conjunction with the 11" wide Vector II™ cut patterns.

10.5" x 118.1"
15.8" x 118.1"

EVOLUTIONS II™

Sharpline's Evolutions II™ bring six new vibrant designs to the automotive graphic arena, each with unique and innovative looks never seen before. Evolutions II™ are perfect in conjunction with the new 11" StreetArt™ Vectors II™, or they can be custom cut for one-of-a-kind graphics.

Due to the directional nature of their design, when you order an Evolutions II™ panel set you will receive a matched left and right side; enough to cut one full vehicle. Order Sharpline's Vectors II™ CD-ROM (see page 54) to have complete custom graphic cutting capability.

Don't have any sign cutting equipment? Sharpline's Express Graphics™ department can create ready-to-install Evolutions II™ graphics cut out of any of our Vector designs.

1135-01 STARS AND STRIPES PANEL SET
11" x 118¹/₂" each
(Vector #13 shown with 1/4" Black border)

Slight variations in color and appearance may exist between the catalog and the actual product.

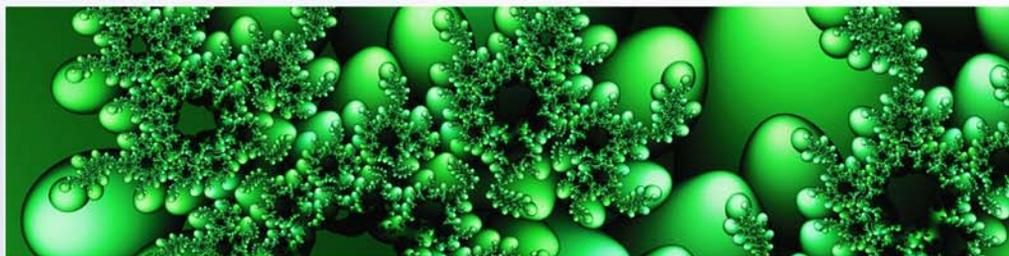

EVOLUTIONS™

1130-01 CARBON FIRE

Individuality plays a big role in how you want your vehicle to look. After all, if you wanted to blend in, you would have left it the way it came from the factory.

StreetArt™ Evolutions™ printed vinyl panels give you a selection of the boldest and most unique looks available anywhere. Designed to be used in conjunction with StreetArt™ Vectors™ and StreetArt™ Vectors II™ (shown on pages 53-54), Evolutions™ are available in five different designs, giving you the ability to customize a vehicle's look with hundreds of possible combinations.

Two StreetArt™ Evolutions™ panels are required to cut a single StreetArt™ Vector™ graphic set. Each printed panel is 15" x 118.5"
